

Emergency Medical/Transport consent form

In the event of a medical emergency, I give permission to Margaret River Off-Road Cycling Association to make decisions for and or provide care for my child.

I understand that during a medical emergency there may not be time to contact a parent prior to action being taken and that this is in the best interest of my child. I understand that I will be notified of any emergency as soon as possible.

These decisions may include but are not limited to,

- Emergency transportation (i.e. Ambulance)
- Permission for emergency personnel to provide treatment (i.e. EMT/Emergency room staff)
- Permission for staff trained in First Aid to provide treatment until other emergency personnel arrive.
- Directing emergency transportation to the closest hospital (the parents' choice of hospital will always try to be honoured unless the situation dictates otherwise, i.e. field trip out of area)
